Are you feeding your pigs on the food that develops brain and muscle and your children on the food that simply produces fat and heat?

No farmer wants to increase the brain and muscle elements in his cattle. Yet through igne-rance of the laws of Nature he feeds them on the outer coatings of wheat (which contain the brain and muscle-producing elements) only grinding the starchy kernel of the grain (which practically contains only the fat and heat-producing elements of wheat) into white flour to make bread for human beings.

To be physically and mentally fit you require every element in the whole of the wheat. . The only food you can get it in is

SHREDDED WHOLE WHEAT BISCUIT AND TRISCUIT

-the only naturally organized food in the world. The shredding process makes it light and porous, thus presenting the greatest surface to the action of the digestive fluids, which makes it easy of digestion.

As whole wheat contains in exact proportions every element required by the human body, it follows that it must necessarily nourish every element of the body.

Triscuit the electrically baked whole wheat wafer, which contains no yeast, fats or chemicals, takes the place of ill-nourishing bread or crackers and makes ideal toast.

Make Triscuit your daily bread.

Biscuit and Triscuit should be heated before eating.

Those men who think they can only be satisfied in the best custom tailor's productions should learn more about Quick & Robertson's High Quality Clothes.

They're the entirely different sort—the uncommon kind. In character they are identical with the tailor's, and in style, appearance, fabric and workmanship there is absolu-tely no difference between them.

Except in price there is no distinguishing point between two-ours being fully a half less.

The extraordinary showing we make of the New tunn and Winter styles will interest every man—by a usl inspection he can easily satisfy himself as to the un-monness of Quick & Robertson's Clothes.

## FNTIRELY DIFFERENT CLOTHES FOR MEN

Those men who think they can only be satisfied in the best custom tailor's productions should learn more about Quick & Robertson's High Quality Clothes.

They're the entirely different sort—the uncommon kind. In character they are identical with the tailor's, and in style, appearance, fabric and workmanship there is absolutely no difference between them.

Just as the best tailors impart by faultless tailoring a style character to their garments, so do our makers.

Except in price there is no distinguishing point between two-ours being fully a half less.

The extraordinary showing we make of the New Autumn and Winter styles will interest every man—by a casual inspection he can easily satisfy himself as to the un-commonness of Quick & Nobertoon & Clothes,

Those men who think they can only be satisfied in the best custom tailors productions should learn more about Quick & Robertson's High Quality Clothes.

They're the entirely different sort—the uncommon kind. In character they are identical with the tailor's, and in style, appearance, fabric and workmanship there is absolutely as difference between them.

Just as the best tailors impart by faultiess tailoring style character to their garments, so do our makers.

Except in price there is no distinguishing point between two-ours being fully a half less.

The extraordinary showing we make of the New tunn and Winter styles will interest every man—by a usal inspection he can easily satisfy himself as to the un-monness of Quick & Robertson's Clothes.

When white flour is wet it forms a compact mass, and if cooked thus, as in some kinds of pastry, and eaten, the digestive juices would only act on the outside of each morsel and the process of digestion is greatly prolonged. So yeast is used to make it porous. Yeast, however, consumes a portion of the gluten in the flour, which is already greatly deficient, being lost in the bolting.

contain the whole of the wheat, and no yeast, chemicals or foreign substances are added. They are shredded to light, short, porous shreds, containing all the nourishing elements of the wheat.

Shredded Whole Wheat Biscuit and Triscuit take the place of the starch-made bread and may be used as the basis for two hundred and fifty dainty dishes.

Make Triscuit your daily bread.

## THE FNTIRELY DIFFERENT CLOTHES FOR MEN

Those men who think they can only be satisfied in the best-custom tailor's productions should learn more about Quick & Robertson's High Quality Clothes.

They're the entirely different sort—the uncommon kind. In character, they are identical with the tailor's, and in style, appearance, fabric and workmanship there is absolutely no difference between them.

Just as the best tailors impart by faultless tailoring a style character to their garments, so do our makers. Except in price there is no distinguishing point between

## THE ENTIRELY DIFFERENT CLOTHES FOR MEN

Those men who think they can only be satisfied in the best custom tailor's productions should learn more about Quick & Robertson's High Quality Clothes.

They're the entirely different sort—the uncommon kind. In character they are identical with the tailors, and in style, appearance, fabric and workmanship there is absolutely no difference between them.

Just as the best tailors impart by faultless tailoring a style character to their garments, so do our makers. Except in price there is no distinguishing point between two—ours being fully a half less.

The extraordinary showing we make of the New tunn and Winter styles will interest every man—by a ual inspection he can easily satisfy himself as to the un-amonness of Quick & Robertson's Clothes.

#### Don't Forget, Gentlemen,

That not only are the values we offer in suits at \$10 better than the best you can find, but our extensive variety offers twice the assortment you'll find at other places where quality is an uncertainty—not a certainty as it is here. Single and double-breasted scack suits, plain and fancy patterned cloths...

#### None Better Than This Boys' Store.

Judge it from whatever viewpoint you will, either for extensiveness of varieties, superiority of quality, fairness of price or style exclusives, this is the Best Boys Store—the one which affords the same buying opportunities for the mothers of Belleville as the depression of the property of the best stores of our larger cities.

It stands pre-eminent, the best and far superior to any ever known in this city ne store where the Highest Quality only can be bought and that at comm

prices.

In suits for hops, we show only the best of all the correct styles for the little fellows, the boys 7 to 15 cans and the young men up to 20 years.

Overauts for boys of all ages and young men—the striking noverties for small boys and the swingger garments designed especially for the most particular young men.

#### ABOUT THAT COAT

You wear a coat. Why? To keep the cold out? No: to keep the warmth in.
What of the body that has
no warmth—the thin, poor body that lacks the healthy flesh and fat it needs?

For such we say that Scott's Emulsion provides the right kind of a coat. Why? Be-cause Scott's Emulsion builds firm, solid flesh and sup-plies just enough fat to fill nature's requirements - no more. That means bodily warmth.

We'll send you a sample free upon requision to BOWNE. Toronto, Ont.

They re the entirely different sort—the uncommon kind. In character they are identical with the tailor's, and in style, appearance, fabric and workmanship there is absolutely no difference between them. Just as the best tailors impart by faultless tailoring a style character to their garments, so do our makers. Except in price there is no distinguishing point between two-ours being fully a half less.

# THE ENTIRELY DIFFERENT CLOTHES FOR MEN

Those men who think they can only be satisfied in the best custom tailor's productions should learn more about Quick & Robertson's High Quality Clothes.

They're the entirely different sort—the uncommon kind. In character they are identical with the tailors, and in style, appearance, fabric and workmanship there is absolutely no difference between them.

Just as the best tailors impart by faultless tailoring s style character to their garments, so do our makers.

Except in price there is no distinguishing point between two—ours being fully a half less.

The extraordinary showing we make of the New Autumn and Winter styles will interest every man—by a casual inspection he can easily satisfy himself as to the un-commonness of Quick & Noberton's Clothes.

#### Men's Business Suits

Single and double-breasted styles, of imported and domestic fabrics—Scotch Tweeds and Choviots, fancy mixtures, the new browns and groys in stripes and broken plaids, fine plain black and blue, smooth and rough faced cloths—\$5 to \$18.

An elegant showing of Men's Raincoats, Top Coats and Overcoats \$3.90 to \$18.50.

#### Don't Forget, Gentlemen,

That not only are the values we offer in suits at \$10 better than the best you can find, but our extensive variety offers twice the assortment you! if land at other places where quality is no uncertainty—not a certainty as it is here. Single and double-breasted sack suits, plain and fancy patterned cloths.

#### None Better Than This Boys' Store.

Judge it from whatever viewpoint you will, either for extensiveness of varieties, superiority of quality, samess of price or style exclusives, this is the Best Boys Store—the one which affords the same buying opportunities for the mothers of Bolleville as they'd enjoy in the best stores of our larger cities.

It stands pre-eminent, the best and far superior to any ever known in this city—the one store where the Highest Quality only can be bought and that at common

# THE FITTIRELY DIFFERENT CLOTHES FOR MEN

Those men who think they can only be satisfied in the best custom tailor's productions should learn more abou Quick & Robertson's High Quality Clothes.

They're the entirely different sort—the uncommon kind in character they are identical with the tailors, and in strength, appearance, fabric and workmanship there is absolu-tely no difference between them. Just as the best tailors impart by faultless tailoring s style character to their garments, so do, our makers.

Except in price there is no distinguishing point between two—ours being fully a half less.

The extraordinary showing we make of the New tumn and Winter styles will interest every man—by a ual inspection he can easily satisfy himself as to the un-monness of Quick & Robertson's Clothes.

#### Men's Business Suits

Single and double-breasted styles, of imported and domestic fabrics—Scotch Tweeds and Cheviots, funcy mixtures, the new browns and greys in stripes and broken plaids, fine plain black and blue, smooth and rough faced cloths—\$5 to \$18.

An elegant showing of Men's Raincoats, Top Coats and Overcoats—\$3.90 to \$18.50.

#### Don't Forget, Gentlemen,

That not only are the values we offer in suits at \$10 better than the best you can find, but our extensive variety offers twice the assortment you'll find at other places where quality is an uncertainty-not a certain-ty as it is here. Single and double-breasted sack suits, plain and fancy patterned cloths....

#### None Better Than This Boys' Store.

Judgo it from whatever viewpoint you will, either for extensiveness of varietionity of quality, fairness of price or style exclusives, this is the Best Boys' Stone which affords the same buying opportunities for the mothers of Bellevilled enjoy in the best stores of our larger cities.

It stands pre-eminent, the best and far superior to any ever known in this city— ne store where the Highest Quality only can be bought and that at common

prices.

In suits for boys, we show only the best of all the correct styles for the little fellows, the boys 7 to 17 years and the young men up to 20 years.

Overcoats for boys of all ages and young men—the striking novelties for small boys and the swagger garments designed expecially for the most particular young men.

# THE ENTIRELY DIFFERENT CLOTHES FOR MEN

These men who think they can only be satisfied in the best custom tailor's productions should learn more about Quick & Robertson's High Quality Clothes.

They're the entirely different sort—the uncommon kind In character they are identical with the tailor's, and in style, appearance, fabric and workmanship there is absolu-tely no difference between them.

Just as the best tailors impart by faultless tailoring to character to their garments, so do our makers.

Except in price there is no distinguishing point between two-ours being fully a half less. The extraordinary showing we make of the New tunn and Winter styles will interest every man—by a ual inspection he can easily satisfy himself as to the un-terminate of Quick & Robertson's Clothea.

#### Men's Business Suits

# -ON-HONOR

That is the very way all our clothing is sold. Ours are not tinkering tailors, we do not sell shoddy cloth cut with an axe and sewed with a bodkin, but good honest clothing that bears the light of keen inspection and has held us for over 30 years as Belleville's best clothiers and will continue to hold us for another 30.

We sell the best \$10 Overcoat in Canada. Don't forget that.

These men who think they can only be satisfied in the best custom tailors productions should learn more about Quick & Robertson's High Quality Clothes.

They re the entirely different sort—the uncommon kind character they are identical with the tailor's, and in it, appearance, fabric and workmanship there is absolu y no difference between them.

Just as the best tailors impart by faultless tailoring as character to their garmonts, so do our makers.

Except in price there is no distinguishing point between the two-ours being fully a half less.

The extraordinary showing we make of the New Autum and Winter styles will interest every man—by a casual inspection he can easily satisfy himself as to the un-commonness of Quick & Robortson's Clothes.

THE ENTIRELY DIFFERENT CLOTHES FOR MEN

Those men who think they can only be satisfied in the best custom tailor's productions should learn more about Quick & Robertson's High Quality Clothes.

They ro the entirely different sort—the uncommon kind in character they are identical with the tailors, and in style, appearance, fabric and workmanship there is absolutely no difference between them.

Just as the best tailors impart by faultless tailoring style character to their garments, so do our makers.

Except in price there is no distinguishing point betwee two—ours being fully a half less.

The extraordinary showing we make of the New tumn and Winter styles will interest every man—by a unl inspection he can easily satisfy himself as to the un-monness of Quick & Robertson's Clothes.

Men's Business Suits

Single and double-breasted styles, of imported and domestic fabrics—Socich Tweeds and Cheviots, fancy mixtures, the new browns and groys in stripes and broken plaids, fine plain black and blue, smooth and rough faced cloths—\$5 to \$18.

An elegant showing of Men's Raincoats, Top Coats and Overcoats—\$3.90 to \$18.50.

Don't Forget, Gentlemen,

That not only are the values, we offer in suits at \$10 better that not only are the Values, we offer in suits at \$10 better than the best you can find, but our extensive variety offers twice the assortment you'll find at other places where quality is an uncertainty-not a certain; yas it is here. Single and double-breasted sack suits, plain and fancy patterned colors...

None Better Than This Boys' Store.

Judge it from whatever viewpoint you will, either for extensiveness of varieties, superiority of quality, fairness of price or style exclusives, this is the Best Boys Store—the one which affords the same buying opportunities for the mothers of Belleville as the depth of the price of the mothers of Belleville as the price of the

by a chipty in the next stores of our surger curse. It stands pre-uniment, the best and far superior to any ever known in this city— ϵ one store—where the Highest Quality—only can be bought—and that at common

prices.

In suits for boys, we show only the best of all the currect styles for the little fellows, the boys 7 to 17 years and the young men up to 20 years.

Overcoats for boys of all ages and young men—the striking novelties for small boys and the swagger garments designed especially for the most particular young men.

THE ENTIRELY DIFFERENT CLOTHES FOR MEN

Those men who think they can only be satisfied in the best custom tailor's productions should learn more abou Quick & Robertson's High Quality Clothes.

They're the entirely different sort—the uncommon kind. In character they are identical with the tailors, and in style, appearance, fabric and workmanship there is absolutely no difference between them.

Just as the best tailors impart by faultless tailoring a style character to their garments, so do our makers.

Except in price there is no distinguishing point between two-ours being fully a half less.

The extraordinary showing we make of the New Autumn and Winter styles will interest every man—by a casual inspection he can easily satisfy himself as to the un-commonness of Quick & Robertson's Clothes.

Men's Business Suits

Single and double-breasted styles, of imported and do-mostic fabrics—Scotch Tweeds and Cheviots, fancy mix-tures, the new browns and groys in stripes and broken plaids, fine plain black and blue, smooth and rough faced cotths—\$5 to \$18.

An elegant showing of Men's Raincoats, Top Coats and recoats—\$3.90 to \$18.50.

Don't Forget, Gentlemen,

That not only are the values we offer in suits at \$10 better than the best you can find, but our extensive variety offers twice the assortment you'll find at other places where quality is an uncertainty-not a certain-ty as it is here. Single and double-breasted sack suits, plain and fancy patterned cloths...

The Tourist Overcoat.

The Tourist Overcoat is a great favorite.

If a coat can confer distinction on the wearer, a "Tourist" certainly does. It's a long, wide shouldered coat, loose fitting in the backers it is confined by a belt.

It is made from choice fabrics, some quite fancy, broken plaids and checks. It's made of medium or heavy weight mater-als, some are single-breasted, some double, some are heavily lin-ed, some have velvet collars.

If you want an' honest and ef-fective audit of the public accounts, you must vote for Conservative can-

didates.

If you want Canada to become a mere fringe on the north of the United States, you will vote for the Government and the Grand Trunk deal.

Even if Blair says nothing more he has spoken effectively. He has reaffirmed his opposition to the Gov-ernment's railway scheme, and re-vived his unanswerable arraignment of that mad mersure.

The chances are the Varuna will take a big crowd of Conservatives to Trenton next Thursday, to cheer for Mr. Porter, but then the stalwarts of Trenton will be able to do enough of that.

The Tourist Overcoat.

The Tourist Overcoat is a great favorite. If a coat can confer distinction on the wearer, a "Tourist" certainly does.

It's a long, wide shouldered coat, loose fitting in the back, nere it is confined by a belt.

It is made from choice fabrics, some quite fancy, broken plaids and checks. It's made of medium or heavy weight materials, some are single-breasted, some double, some are heavily lined, some have volvet collars.

SWAGGER GARMENTS EVERY ONE OF THEM.

\$7, \$10, \$12, \$15 to \$18 is the price range.

HAD TO HIDE IT

A mother wrote us recently that she had to keep Scott's Emulsion under lock and key her children used to drink it whenever her back was turned. Strange that children should like something that is so good for them. It's usually the other way. Scott's Emulsion makes children comfortable, makes them fat and rosy-cheeked. Berhaps that's why they like it 'so much-they know it makes them feel good.

The ideal policy, as it appears to the undersigned, for the Govern-ment to adopt, so soon as it shall be deemed necessary to take up the sub-ject of a thire transcontinental rail-say, would be to leaure, first, that the rillway shall not promote the carriage of our export products or our imports southerly by way of the United States lines of railway; but to and from the St. Lewrence on summer and from the St. Lawrence in summer and the ports of Halifax and St. John in winter. That the Quobec bridge be utilized as, a part of the said line and that the railway b-

pushed westerly from that point by degrees to the Pésoe II-ver district, through the Bockles to the Pacific Coast. In the acculting it would be well to decline all assistance of rallways to which Government has not already committed, and propose to Farliament that rallway instrea-tor-remark that territory he millied.

We note that an extremed Liberal friend of ours, Mr. Ilvary Pringle to wit, has been making a political speech, in the course of which he is reported as saying:

The report of the meeting does state that the ceiling fell and am Mr. Pringle on the head when smade that statement. But sur smade that statement. But surely be must have been mareported!
Surely no sensible men would thus attempt to insuft the intelligence of his hearers. We would tearfully beg Mr. Pringle to deny this statement before his reputation for veracity becomes a thung of fatters.

Mr. M. Wright in also reported in Mr. M. Wright is also reported in an anger at the same showing that government ownership of railways was, a deplorable thing. This is overcoat weather. Do you contemplate buying an overcoat? Honestly, gentlemen, we never had such well tailored overcoats, and even our own salesmen differ as to the most attractive styles.

"This will be the banner coat" says a salesman, "No, this one " says another. "Both wrong, here's the star coat" says another. And so it goes. This is overcoat weather. Do you contemplate buying an overcoat? Honestly, gentlemen, we never had such well tailored overcoats, and even our own salesmen differ as to the most attractive styles. "This will be the banner coat" says a salesman, "No, this one" says another. "Both wrong, here's the star coat" says another. And so it goes, All the styles are so good that it is hard to pick the best. The Tourist Overcoat is a great favorite.

If a coat can confer distinction on the wearer a "Tourist" certainly does.

It's a long, wide shouldered coat, loose fitting in the back, where it is confined by a belt.

It is made from cludes fabrics, some quite fancy, broken plaids and checks. It's made of medium or heavy weight mater-ials, some are single-breasted, some double, some are heavily lin-ed, some have velvet collars.

Overcoat Weather.

This is overcoat weather. Do you contemplate buying an overcoat? Honestly, gentlemen, we never had such well tailored overcoats, and even our own salesmen differ as to the most attractive styles.

"This will be the banner coat" says a salesman, "No, this one" says another. "Both wrong, here's the star coat" says another. And so it goes. All the styles are so good that it is hard to pick the best. But the writer's opinion is that the long, loose coat, either with or without strap, is the nice coat for the good dresser.

No use talking prices (\$5 to \$15). Just come in and see how glad we are to show them, whether you are prepared to purchase or not.
